

Setting A Table

Clues

Cut out the items to set your tables. Follow the clues to set the table the correct way!
Use glue to put them together.

1. The flat thin piece goes down first.
2. A round object, usually plastic or glass goes in the middle.
3. On the right side of the circle item is a sharp item (be careful!)
4. The item next to that can be used to eat cereal.
5. On the left side of the circle is the utensil has prongs.
6. Under the prongs is a paper product.
7. In the right corner place the item that you sip out of.
8. Ta-Da Perfect Table Setting!
